

Supporting Change for Families and carers

We know that family and carers of people with addiction can feel helpless around how they can provide support to their loved one. It affects not just the person with the problem but those closest to them.

The Support We Provide?

- Information on drug and alcohol treatment
- Drug and alcohol awareness
- Understanding addiction
- Signpost you to the help you need
- Provide advice and guidance to secure your emotional wellbeing

If you would like more information, please ask to speak to the Service User and Carer Lead on
01482 344690

Equal Opportunities

You will be treated with dignity and respect, and we will not discriminate against you on the grounds of gender, sexuality, age, race, religion, health status, ability or class.
